ALL-LIFTS^{Inc.}

Hoist and Sling Inspection and Testing

SINCE 1966

Your rigging hardware and sling specialist.

Need heavy duty nylon lifting slings but can't find what you're looking for?

Call All-Lifts, our made in the USA lift slings are designed to handle the most rigorous lifting demands. Our heavy duty nylon slings are built to handle the requirements of your lift, all are backed by our guarantee.

We have a wide variety of nylon lifting slings including eye & eye slings, endless slings, reverse eye, but if your job calls for different options, check out our other lifting slings and straps including polyester round lifting slings, wire rope and chain slings.

NYLON SLINGS //

TYPE 1 (TC)

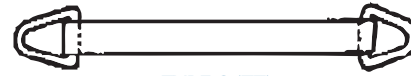

This type of sling has a triangle and choker fitting on either end. These slings are used in a vertical, choker, or basket hitch.

TYPE 1 (TC)

TYPE 2 (TT)

This type of sling has a triangle fitting on each end. These slings are used in vertical and basket hitches.

TYPE 2 (TT)

TYPE 3 (EE)

Flat eye type slings are very popular and can be used in vertical, choker, and basket hitches. Unless type 4 slings are requested, this type of sling is standard.

TYPE 3 (EE)

TYPE 4 (EE)

Twisted eye slings are similar to Type 3 slings except the eyes are twisted 90 degrees to form a better choker hitch. This type of sling also nests better in the crane hook.

TYPE 4 (EE)

TYPE 5 (EN)

Endless slings are the most versatile of all the nylon sling configurations. They can be used in all three types of hitches and the wear points can be adjusted around the circumference of the sling to increase sling life. When used in a choker or basket hitch the legs can be spread for improved load control and balance.

TYPE 5 (EN)

TYPE 6 (RE)

Reverse eyeslings are an endless sling with the edges butted together to double the sling width. The eyes are reinforced and wear pads are sewn onto both sides of the body and eyes. The completed sling is very strong and wear resistant.

TYPE 6 (RE)

STANDARD EYE LENGTH FOR TYPE 3 AND TYPE 4 NYLON SLINGS

SLING WIDTH	1 PLY	2 PLY	3 PLY	4 PLY
1"	8 1/2"	8 1/2"	10"	10"
